

Alina's Guide to Range Rover

Land Rover and Range Rover are built by the same manufacturer. However, while nowadays Land Rover is owned by Tata of India, which bought the brand together with Jaguar from Ford in 2008, Range Rovers are built by the Jaguar Land Rover group as well.

Personally, this car company is my favourite because I really like the style and also the design. My favourite Range Rover colour has to be black and the car has definitely got to be polished!
