3rd October 2019

Dear parent/carer,

Trip to Currys PC World

Over the last couple of weeks in Irwell, students have learned the importance of electrical safety. They have looked at what is safe to touch and what is unsafe. They have started to recognise and name circuit symbols and have made a simple circuit to light a bulb. Students have also enjoyed a sensory story about electrical devices in the home and have started to sort electrical devices into different output categories such as heat, sound, light and movement.

As part of our lessons, your son/daughter will have the opportunity to visit Currys PC World in Burnley on Tuesday 8th October. Students will be able to explore electrical devices on a bigger scale and learn about the different types of jobs people perform within the store.

We would appreciate it if you could fill in and return the slip below.

Yours Sincerely,

Laura Gibbons
Irwell Form Tutor
