

The Trustees of the Design and Technology Association wish to award

Darren Wilde

Supporting Design and Technology Award

Chair of Trustees

A handwritten signature in black ink, appearing to read "Lesley Morris".

Lesley Morris

 Darren actively supports students with a wide range of physical, communication, mental health and medical needs. None of this holds him or our students back when it comes to designing and making exceptional products in their D&T lessons.

D&T students are integral to the success of the Christmas Fair by producing signage and props for the event. The money raised by the department is used to send students with more complex needs on a residential trip.

There is no 'I can't' attitude, regardless of ability, and the students continue to amaze us with their work and the products they design.
