

PENDLE COMMUNITY HIGH SCHOOL & COLLEGE

Accessibility Plan

1. Aims

Schools are required under the Equality Act 2010 to have an accessibility plan. The purpose of the plan is to:

- Increase the extent to which disabled pupils can participate in the curriculum
- Improve the physical environment of the school to enable disabled pupils to take better advantage of education, benefits, facilities and services provided
- Improve the availability of accessible information to disabled pupils

Pendle Community High School & College (PCHS&C) is a co-located, community special school for students with generic learning difficulties aged 11-19 years. Our students have a wide range of Special Educational Needs (SEN) including a combination of: moderate, severe, complex and multiple learning difficulties; autistic spectrum and communication needs; and physical, medical and sensory needs. All our students have an Education, Health & Care Plan.

According to the Index of Multiple Deprivation 2019, Pendle is 14th out of the top 20 local authority districts deemed to be in the most deprived 10% (nationally). The socio-economic and ethnic background of the school population is reflective of the wider local community and above average on indicators of ethnic minority, Free School Meals and Looked After Children.

At Pendle Community High School and College our mission is to **embrace diversity, nurture potential** and **raise aspirations** of all our learners, to make a positive difference to their lives. This is underpinned by PCHS&C's core expectations (displayed throughout the building) that in our school and college community we care for and respect ourselves; other people; our environment and always try our best.

The Governors and staff at PCHS & C aim to treat all its pupils fairly and with respect. This involves providing opportunities to ensure that everyone can achieve their very best, without discrimination of any kind. We achieve this through the following:

- Ensuring all pupils have access to a suitable curriculum including National Curriculum that meets their individual learning needs to maximise progress.
- Ensuring all pupils have access to inclusive learning opportunities within school/college and the wider community.
- Providing a safe and supporting learning environment that encourages and promotes self-advocacy, self-discipline, independence and personal aspiration.
- Offering an environment that maximises independence and encourages pupils to be the best they can be.
- Continuing to adapt and change to meet the needs of all our young people through self-reflection and constant professional development.

Our school is committed to ensuring staff are trained in equality issues with reference to the Equality Act 2010, including understanding disability issues, through comprehensive induction and continuing professional development.

The school supports any available partnerships to develop and implement the plan.

We have included a range of stakeholders in the development of this accessibility plan, including selected pupils, staff and governors of the school.

PCHS&C's plan is available online on the school website, and paper copies are available upon request.

Our school's complaints procedure covers the accessibility plan. If you have any concerns relating to accessibility in school, this procedure sets out the process for raising these concerns.

2. Legislation and guidance

This document meets the requirements of [schedule 10 of the Equality Act 2010](#) and the Department for Education (DfE) [guidance for schools on the Equality Act 2010](#).

The Equality Act 2010 defines an individual as disabled if he or she has a physical or mental impairment that has a 'substantial' and 'long-term' adverse effect on his or her ability to undertake normal day to day activities.

Under the [Special Educational Needs and Disability \(SEND\) Code of Practice](#), 'long-term' is defined as 'a year or more' and 'substantial' is defined as 'more than minor or trivial'. The definition includes sensory impairments such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy and cancer.

Schools are required to make 'reasonable adjustments' for pupils with disabilities under the Equality Act 2010, to alleviate any substantial disadvantage that a disabled pupil faces in comparison with non-disabled pupils. This can include, for example, the provision of an auxiliary aid or adjustments to premises.

This policy complies with our funding agreement and articles of association.

3. Action plan

This action plan sets out the aims of our accessibility plan in accordance with the Equality Act 2010.
